

T2 BODYCAM

CAPTURE AND GO

EVIDENCE. SAFE. EASY.

The Zepcam T2 bodycam is developed for allround professional use. It's compact and easy to use. Together with integrated backend for video offload and video management makes the T2 bodycam a complete and robust solution.

The ruggedized system is perfect for use in law enforcement, security, first responders, public transport and industry.

Zepcam also provides an easy solution for charging and offloading all the videos from the T2 bodycams. The videos will be offloaded via a secure transmission to the Zepcam cloud or your own server. Zepcam offers own video management software, but can also integrate with 3rd party software.

For more information visit our website:

REDUCE AGRESSION

The visible worn T2 bodycam helps to reduce agression.

VIDEO EVIDENCE

Video is highly effective evidence in case of incidents.

DOCK & UPLOAD

While docked the T2 recharges and offloads video to a secure server.

TRAINING & EVALUATION

Use video analysis for evaluation and training.

SECURE VIDEO STORAGE

All network connections are encrypted via secure AES 256-bit.

COMMAND & CONTROL ROOMS

Integrate bodycams into your existing video management systems.

INTEGRATED SOLUTION: EASY, SECURE AND SCALABLE

Capture video

Compact, robust and easy to use bodycams

Dock and upload

Docking station for data exchange and fast recharge

Secure storage

Store and manage on the Zepcam cloud or own server

View and manage

Zepcam software or 3rd party video management systems
